# Muhammad Moeen Ul Qadir

**Full-Stack Software Engineer · FinTech & Trading Systems**

## PROFILE

Full-stack engineer with 5+ years building production web software for startups and international teams: SaaS dashboards, legal-tech, e-commerce admin systems and AI-powered tools. Strong across Next.js and Node.js, Docker/CI-CD infrastructure and LLM integrations, with a growing focus on algorithmic trading systems. Has led a front-end team; remote-ready across time zones.

## EXPERIENCE

### Full Stack Software Engineer

Dec 2022 — Present

FasTech Systems · Sukkur, Pakistan (Remote)

Led the front-end team for 1.5+ years, keeping delivery on schedule and code quality high through code reviews.

Owned end-to-end delivery of web projects with Next.js and React.js.

Turned business requirements into software; contributed to architecture and product planning.

Next.js · React · TypeScript · Node.js · Tailwind · PostgreSQL · Docker

### Front End Developer

Apr 2023 — Sep 2023

Augier.ai · New York, USA (Remote)

Built responsive, accessible front-ends for a US legal-tech company from design mockups.

Improved UX across legal-tech applications; integrated components with backend developers.

Designed the UI and led the dashboard for Callsense, an AI-based call-center SaaS.

React.js · Next.js · TypeScript · Tailwind CSS · REST APIs

### Banking IT Operations & Finance

Jun 2022 — Dec 2022

The Bank of Punjab · Multan, Pakistan

Supported banking IT operations (PCs, POS systems, vendors) and managed budgets, reconciliations and vendor payments.

IT Support · POS Systems · MS Office · Financial Systems
